

## Last week...

We learned about different animals that go into hibernation in the winter and then come out in the springtime. We used our technology devices to look at some videos of the animals in their natural habitat and where they sleep.

We made some bird feeders and put these out on the fence in the garden for the birds to snack on.

We have been watering our cress each day and it's been amazing to see the changes happening, the children are really enjoying the activity.

## Next week...

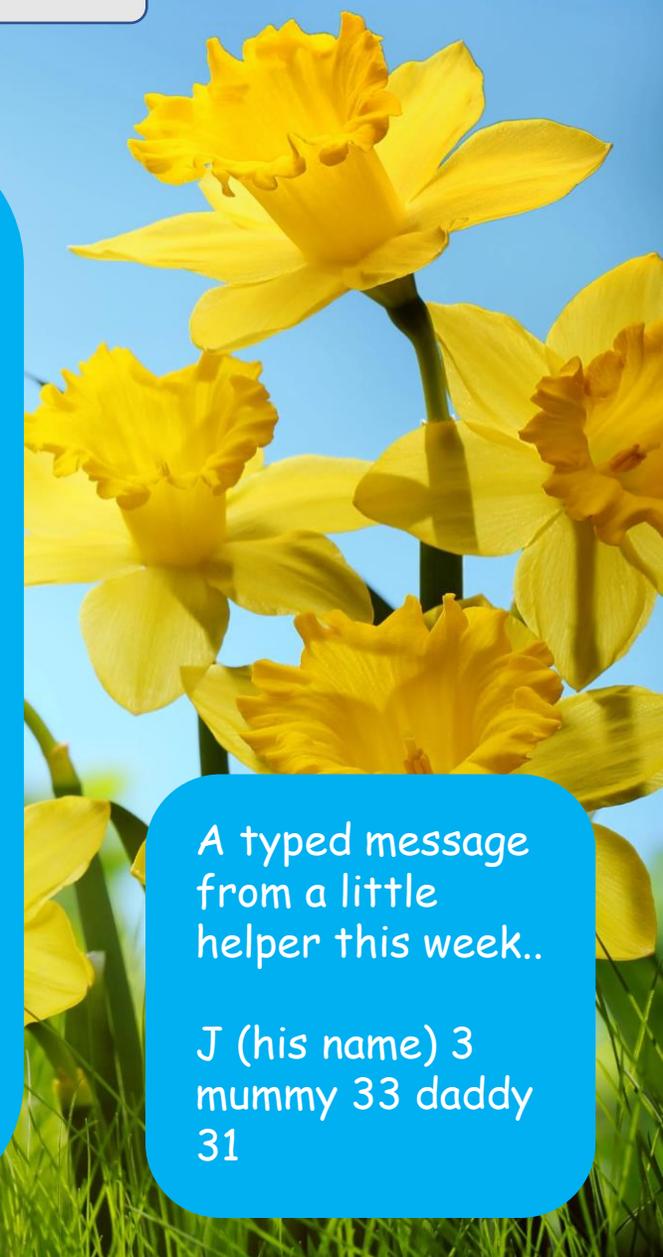

Our topic of the week will be 'All about me'. We would love for the children to bring in a baby picture of themselves, we will compare differences between then and now.

We will also be drawing self portraits on bunting and will be hanging this within Pre-School for all the children to see.

Alongside our topic we will also be looking at St. Patricks day! We have some great activities planned... and maybe even a leprechaun will visit?

A typed message from a little helper this week..

## Sound of the week

We incorporate sound of the week within 'show and tell' so please could your child bring in one thing beginning with 'D' to share with us all. This is where we will concentrate on correct speech formation and initial sound recognition

## Important things to bring to Pre-School

There is a big emphasis in the revised EYFS for oral health and healthy eating, it would be great if you could check your child's lunch to ensure it is a well-balanced meal and as healthy as possible. We go outside in all weather, so please be prepared with suitable clothing. Could your child have some spares in their bag just in case we get wet and muddy outside too?

## Number of the week

Our number of the week will be 6. We will be looking at number recognition and representing 6 using both objects and mark-making.
